SUMMARY

Full-stack software engineer with 5+ years of experience across web development, AI/ML, and systems automation. Skilled in building scalable applications, integrating third-party APIs into streamlined pipelines, and re-engineering business operations for measurable efficiency gains. Combines strong front-end and back-end expertise with hands-on cloud deployment and data engineering. Known for cross-functional collaboration and translating business needs into reliable technical solutions.

SKILLS

- **Frontend:** JavaScript, TypeScript, React.js, Next.js, Vue.js
- **Backend:** Python (FastAPI, Flask, Django), PHP (Laravel, CodeIgniter), Node.js, WordPress
- **DevOps & Cloud:** Docker, AWS (EC2, ECS), GCP, Ansible/AWX, CI/CD
- **Databases:** PostgreSQL, MySQL, MongoDB, InfluxDB
- **Automation & Integration:** REST APIs, Keap, Zapier, Make,
- **Tools:** Grafana, Git
- **Soft Skills:** Communication, Collaboration, Problem-solving, Client Relations

EXPERIENCE

IT Specialist - FLFE Innovative Corp. | Canada | Sep 2025 - Present

- Manage end-to-end IT operations across hardware, software, network systems, and website security for internal staff and external clients — defending against DDoS and other threats while applying structured root-cause analysis to resolve incidents and reduce recurring issues by 10%.
- Administer, develop, and maintain business-critical websites on WordPress, handling front-end customization and back-end troubleshooting with Elementor, Divi, Gravity Forms, WooCommerce, Formlift, and Memberium.
- Architect and deploy API integrations and 50+ automation workflows across Keap, Zapier, and Make — including two-way SMS and Zoom webinar automation that auto-tags 1,000+ registrants in Keap, eliminating 5 hours of manual work weekly — and integrate AI tools (Claude, Perplexity) to improve productivity by 10%.
- Re-engineer legacy business operations into modern, scalable architectures by defining KPIs, mapping workflows, and redesigning system processes.
- Act as the technical liaison between external development teams and business stakeholders, gathering requirements and coordinating 3 concurrent projects, and deliver reporting and data analysis that support data-driven decisions for the marketing team.

Student & Graduate Research Assistant - Lambton College | Canada | Aug 2022 – Apr 2024

- Designed and implemented a control panel for monitoring and visualizing time series data for energy stations ensuring project alignment with client expectations using Django, Vue.js and PostgreSQL.
- Effectively optimized the fetching time-series data from the energy sources using TCP/IP by assisting in building the gateway like MODBUS bridge resulting in an onboarding system from 1 month to 30 minutes.

- Utilized AWX for automating repetitive tasks and managing configurations, significantly improving the efficiency of the CI/CD pipelines which streamlined the development and deployment processes, ensuring consistent and error-free deployments in the AWS EC2.

Software Engineer - Terakoya Academia | Nepal | May 2021 - Dec 2021

- Researched and developed an end-to-end AI-powered recommendation system for personalized content delivery, using Flask (backend) and React.js (frontend).
- Managed databases and processed large text datasets using advanced NLP techniques and Transformer models to improve recommendation accuracy.
- Deployed the system on AWS (ECS and EC2) using Docker and CI/CD pipelines to maintain scalability.

Junior Web Developer - Kunyo.co | Nepal | Sep 2019 - Dec 2020

- Analyzed client business requirements and built dynamic websites using PHP (Laravel, CodeIgniter) and MySQL.
- Designed, developed, and deployed new features in JavaScript within a team, using automated testing to improve release quality and reduce delivery timelines.
- Developed and validated REST APIs, improving system functionality and user satisfaction.

EDUCATION

- **Post Graduate Diploma in Artificial Intelligence and Machine Learning** | Lambton College, Toronto, Canada | Aug 2023
- **BSc Computing (Software Engineering)** | University of Northampton (NAAMI College) | Nepal | July 2019
